"PREPARED BY AND FOR THE CAST OF WALT DISNEY WORLD"

AUGUST 3, 1979

## A "TOLL" STORY

The first face a guest sees at Walt Disney World is that of one of our Toll Plaza cast members, and our employees working at our "front door" have a key role in the day-to-day operation of our Vacation Kingdom. What happens at the Toll Plaza can affect our whole operation.

The Toll Plaza assists in the operation of our Main Parking Lot. **Phil Holmes**, supervisor of the Parking Lot told us, "The lead at the Toll Plaza is in radio contact with the Parking Lot lead. It's the information relayed from the Toll Plaza that tells the Lot lead how his or her parking operation will go. An increase in the number of cars coming in may warrant the need of a 'bleed-off' crew to avoid backups . . . this means parking two lots at once." Of course, the coordination between the Toll Plaza and the Lot helps to alleviate guest wait time entering Walt Disney World.

Our Toll Plaza crew also assist our Resorts by directing our guests to their hotel. As each resort guest presents their reservation confirmation at the Toll Plaza, our cast members write the guest's name on an Info-link. This transmits the written guest name to the appropriate reception area and warns our cast members there. By the time the guest arrives at reception, their paperwork is waiting for them and their check-in time is minimized.

Most importantly, our Toll Plaza cast help our guests. Their greetings help establish the day for our guests. The information they give — both written and verbal — helps relieve any confusion our guests may be having. **Mitch Wells**, Toll Plaza lead explained, "We only have a very short moment to make an impression on our guests and there's quite an art in making those few seconds count." "You have to remember that each guest feels that he or she is in their own little house," Phil added, "If you give them directions, you have to be very positive and very concise . . . and that is something that our Toll Plaza crew are really good at."

Parking cars in our Main Parking Lot is more of a science than most of our cast realize. The Toll Plaza, as part of the Parking Lot/Transportation operation, plays a vitally important part of that science. They operate their 14 lanes of traffic and seven booths from 7 a.m. until 12:15 a.m. . . . Security operates the Toll Plaza outside these hours. They provide a diversity of information to many different people — from car counts for the Parking Lot and our Transportation systems to assistance in finding cars lost in the Parking Lot (they time stamp each Parking receipt). They even help guests who have no idea where they are!

## NOTES FROM PAM

Greetings Everyone,

I hope you are all enjoying your summer activities. My activities have really kept the summer days from being anything but long! My travels the last two months have taken me to Germany, Canada, and throughout the northeastern states. I am really becoming an experienced packer!

During our trip to Canada, Mickey and I had the honor of presenting a beautiful bronze castle to Her Majesty, The Queen Mother. We presented it to her on behalf of all our cast, to commemorate the International Year of the Child.

Here at home I am keeping busy with speaking engagements to such groups as the Orlando Jaycees, Pine Hills Kiwanis Club, and several convention groups. I also had the pleasure of escorting President Spencer W. Kimball of the Church of Jesus Christ of Latter-Day Saints ("Mormons") on a VIP tour of the Magic Kingdom. He really enjoyed the Theme Park and had nothing but compliments for the Polynesian Revue.

In Philadelphia, I participated in a press screening for "The Apple Dumpling Gang Rides Again." I thoroughly enjoyed it, and you and your families will, too. Our cast premiere will be in late August, so I hope to see you there. In Boston, I was a guest on a popular radio talk show where I received phone calls on the air. The calls poured in, and everyone praised the friendliness and service for which you all have made Walt Disney World famous!

I hope your remaining summer days are SUPER!

Your Ambassador,

*Pam*

In Germany, Pam helped celebrate the inaugural flight of Lufthansa's, Miami, Florida to Frankfurt, Germany, route. A cruise down the Rhine River was part of the tour.

In a children's hospital in Toronto, Canada, one of the children surprised Mickey Mouse and Pam by wearing Mouse "ears."

## MICKEY MOUSE 50TH BIRTHDAY DISPLAY AT CENTER

A new display has been placed in our Archives display area in the lobby of our Center Building dedicated to the numerous items Walt Disney Productions received in honor of Mickey Mouse's 50th Birthday celebration. ## EXECS MAKE LATE ENTRY INTO CANOE RACES

Making a bid to capitulate on their recent victory in the Hourly/Exec Softball Classic, a crack Exec canoe team took to the Rivers of America to test the water. Pictured below is our Exec team as they try to point their canoe in the right direction to start their first run in our Canoe Races.

From bow to stern: Tom Eastman, Director, Disney University; Ed Moriarty, Vice-President, Lake Buena Vista; Bill Hoelscher, Director, Operations; Bob Allen, Vice-President, Walt Disney World; Paul Bellew, Director, Merchandise; Dan Darrow, Director, Sales Division; Jim Passilla, Vice-President, Employee Relations; and Keith Kambak, Director, Resorts.

After an energetic paddle around Tom Sawyer's Island, our Exec paddlers enter the final bend after a near collision with the Admiral Joe Fowler riverboat.

At the finish line, their time was "somewhere over six minutes". Whatever it was, the ducks beat them by three seconds and they started after our intrepid canoers!

## WESTERN DAY AT FANTASYLAND

The Old West came to Fantasyland Cafeteria last week when Decorating transformed our modern cafeteria into a western decor. Cowboys and cowgirls who ventured into the wild west found a real western meal awaiting them consisting of filet, baked potatoes, beans and franks, and other assortments of hearty food!

The Western Day party was just one way for the cast at Fantasyland cafeteria to say "thanks" for being their guest!

# "It Takes People"

**Tina Parker** is one of our Casual Temporary employees but what makes her job a little more unusual is that she is the only woman currently working in our Magic Kingdom Landscaping Department.

This is Tina's first summer at Walt Disney World although she was born and raised in Orlando. She is currently enrolled at Auburn University as a Junior studying Landscape Architecture. "I have always been interested in plants and in art and Landscape Architecture seemed to be the ideal way to combine these two interests with a career," she told us. She applied to Walt Disney World for a casual temporary position in our Landscaping Department. She felt that this would assist her greatly in her studies. "It has helped considerably and the other people in the department have been extremely patient and helpful," Tina says, "The only surprise I've had to contend with was getting up at 4:30 a.m. to get to work by 6 a.m.! It's worth coming to work at that time just because the Magic Kingdom is so pretty and much cooler at that time."

Outside of landscaping, Tina's interests include tennis, swimming, and painting. "I've entered a few art shows but not competitively," she added, "I really just paint for the pleasure of it — seascapes are my favorite subject."

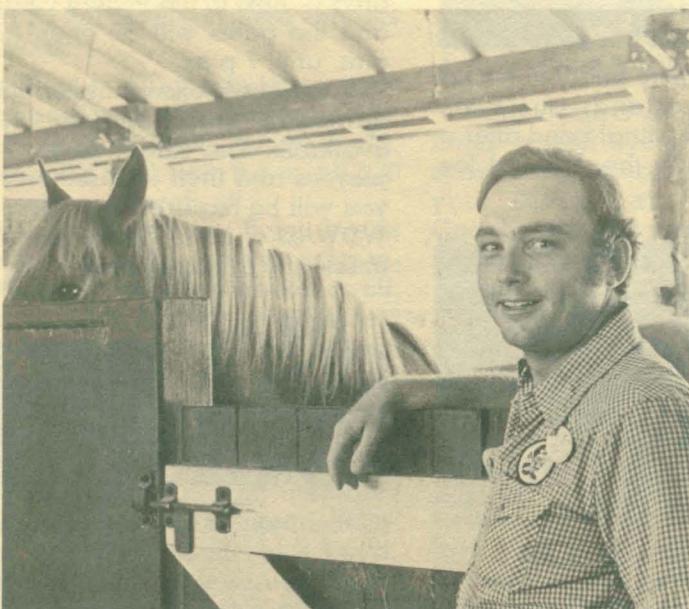

Tina's summer has been an opportunity to learn more about her chosen profession, but at the same time to make a valuable contribution to the Walt Disney World show. She hopes to return next year and work here and we look forward to seeing her next summer.

One of the key departments in our Facilities area is the Maintenance Services office. They are responsible for the coordination of all work that comes through our Facilities shops. **Walter Ustach** works with the office and has a one-of-a-kind responsibility — he steam cleans everything that comes to the shops for repair or maintenance. This includes parts, vehicles, boats, various equipment, tools, trash cans — everything that needs repair or painting.

Walter hails originally from Baltimore, Maryland, and came to Florida 17 years ago. His first position was with the Streets Department for the city of Tampa and he worked there for eight years. He joined our Walt Disney World cast in 1972. His responsibilities included many important jobs around the staff shop including the never ending responsibility for keeping the shop tidy. From there he moved to the position of steamcleaner for the whole facilities service area. John Nicks, Walter's supervisor, told us that Walter is a fast, efficient worker who keeps ahead of his day-to-day work, "He will always find something to do," he told us.

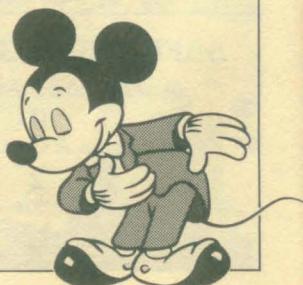

In his spare time, Walter uses scrap wood to build furniture and small wooden decorative pieces — many examples of his decorative work grace desks throughout the facilities area. He also enjoys music — he dances a mean polka — and bowling. Walter also finds time to cut hair, a trade he learned and followed in Baltimore. On the subject of his job, Walter told us, "There's one thing about steamcleaning — it helps keep your weight down!"

**Kyle Brady** first joined our Walt Disney World cast as an Operations Host in Fantasyland in July 1973. He stayed in Fantasyland, learning the different attractions until February 1974, and then he transferred to the Tri-Circle D Ranch in Fort Wilderness. After a brief period away from Walt Disney World, he returned to the ranch in May 1975 where you find him today as a lead.

Born in Chateaugay, New York, Kyle learned many of the basics of farming and the care of animals early in his life. "I knew very little about horses until I came to the ranch," Kyle told us, "But the people here were very good in teaching me all there was to know about the care of our animals." At the ranch there are 60 horses to look after — 43 saddle horses, 13 draft horses (used on Main Street), 2 foals and 2 yearlings. The ranch is a 24-hour-a-day operation although the chief responsibilities of our third shift is to polish the tack and watch the horses. The ranch hands do more than just tend the horses, too, there are other areas for which they are responsible. They operate the trail rides for the Fort Wilderness guests, they tend the petting farm, and they operate the streetcars on Main Street, U.S.A.

In spite of his interest in animals, Kyle confesses that he has only one pet — a cat. "I like animals," he says, "But it's nice to get away from them once in a while."
